**Bircas Hachama**

Every 28 years, when the sun returns to the exact position, at the same time of the week, that it occupied at the time of its creation—at the beginning of the fourth day of creation. A special blessing – called Birkat Hachamah, "the sun blessing" – is recited to mark this event. Due to the rarity of this event, this blessing is customarily recited amid large public gatherings of men, women and children.

This year, 5769, we will perform this special mitzvah on the morning of April 8.

**Hewlett-Woodmere Library**

Please note that The Hewlett-Woodmere Library Budget Vote and Trustee Election is Tuesday, April 7th from 7am-9pm at the library. Absentee
